His father had named him Banner of War. He had come west, leaving all he knew behind him, and had. He came up on deck again. It was clearing, and as the sun set the clouds broke all across the. "So when the Windkey returned, we were nine again. But divided. For the Summoner said we must meet again and choose an Archmage. The king had had no place among us, he said. And "a woman on Gont", whoever she may be, has no place among the men on Roke. Eh? The Windkey, the Chanter, the Changer, the Hand, say he is right. And as King Lebannen is one returned from death, fulfilling that prophecy, they say so will the Archmage be one returned from death. "I can give you a bit of milk soup, and a penny will be more than enough, thank you." She didn't. something? I was numb from the strain of trying not to do anything wrong. "Go in?" the boy Dulse had whispered. The Changer stared openly at her. He was not as tall as she was. He stared at the Doorkeeper, and then at her again. He stood there a long time before he went down through the high grasses and the sparkweed. At the foot of the hill he came into a lane. It led him through farmlands that looked well kept, though very lonesome. He looked for a lane or path leading to the town, but there never was one that went eastward. Not a soul was in the fields, some of which were newly ploughed. No dog barked as he went by. Only at a crossroads an old donkey grazing a stony pasture came over to the wooden fence and leaned its head out, craving company. Medra stopped to stroke the grey-brown, bony face. A city man and a saltwater man, he knew little of farms and their animals, but he thought the donkey looked at him kindly. She looked at the door of the bedroom. It opened and he stood there, thin and tired, his dark eyes full of sleep and bewilderment and pain. Magic. talk about? he asked, and she answered, "What is to become of us. "of an impossible airplane, but remained empty; there were only the black machines, emerging. The poem begins with the best known and most cherished love story in the Archipelago, that of Morred and Elfarran. In the third year of his reign, the young king went south to the largest island of the Archipelago, Havnor, to settle disputes among the city-states there. Returning in his "oarless longship," he came to the island Solea and there saw Elfarran, the Islewoman or Lady of Solea, "in the orchards in the spring." He did not continue on to Enlad, but stayed with Elfarran. To pledge his troth he gave her a silver bracelet or arm ring, the treasure of his family, on which was engraved a unique and powerful True Rune. that carried the timber and the chestnuts over the hills to be sold. He did very well from trees, "So you put a spell on yourself," she said, "just as that wizard put one on you. A spell to keep. Medra woke in pain, in darkness. For a long time that was all there was. The pain came and went, "I don't understand! Explain this to me. Tell me. You see a man who appeals to you, and to the wonderful mysteries at the end of them. The sorcerer came out from behind San. The Summoner looked up at Irian. Slowly he raised his arms and the white staff in the invocation of a spell, speaking in the tongue that all the wizards and mages of Roke had learned, the language of their art, the Language of the Making: 'Irian, by your name I summon you and bind you to obey me!'. witches learn a few words of it; wizards learn many, and some come to speak it almost as fluently. The Kargs are deeply resistant to writing of any kind, considering it to be sorcerous and wicked. They keep complex accounts and records in weavings of different

colors and weights of yarn, and are expert mathematicians, using base twelve; but only since the Godkings came to power have they employed any kind of symbolic writing, and that sparingly. Bureaucrats and tradesmen of the Empire adapted the Hardic runes to Kargish, with some simplifications and additions, for purposes of business and diplomacy. But Kargish priests never learn writing; and many Kargs still write every Hardic rune with a light stroke through it, to cancel out the sorcery that lurks in it..need to be free of. The Book of Names, which is kept now in the Isolate Tower, was the foundation of the knowledge and method of Naming, which is the foundation of the magic of Roke. They expect modesty to come later, if at all. 'I said Roke,' Hemlock said in a tone that said he was unused to having to repeat himself. And then, because this boy, this soft-headed, spoiled, moony boy had endeared himself to Hemlock by his uncomplaining patience, he took pity on him and said, 'You should either go to Roke or find a wizard to teach you what you need. Of course you need what I can teach you. You need the names. The art begins and ends in naming. But that's not your gift. You have a poor memory for words. You must train it diligently. However, it's clear that you do have capacities, and that they need cultivation and discipline, which another man can give you better than I can.' So does modesty breed modesty, sometimes, even in unlikely places. 'If you were to go to Roke, I'd send a letter with you drawing you to the particular attention of the Master Summoner.'
