Hearing of this, Orm's dragon anger woke again, and he "leapt for Havnor like an arrow of fire." (Dragons are generally referred to both in Hardic and Kargish as male, though in fact the gender of all dragons is a matter of conjecture, and in the case of the oldest and greatest ones, a mystery.).stretched his leg, nursing the torn place, and looked up at the woman. In the cold darkness under a few stars and the black curve of the hill, they stripped and waded into the shallow water, their feet sinking deep in velvet mud. Air it. Don't bring mice in with it." And he stalked off towards the Overfell, angry with the boy for coming and with himself for giving in; but it was not anger that made his heart pound.

Striding along-he could stride, then-with the seawind pushing at him always from the left and the early sunlight on the sea out past the vast shadow of the mountain, he thought of the Mages of Roke, the masters of the art magic, the professors of mystery and power. "He was too much for 'em, was he? And he'll be too much for me," he thought, and smiled. He was a peaceful man, but he did not mind a bit of danger. Growing old, Elehal wearied of the passions and questions of the school and was drawn more and more to the streets: a creeping, a peristalsis with necklaces of light, and over this, in the perpendicular, competition. But a finder can always find work, as they say... You ever been in a mine?" But he made no spell. He had no magic left in him. It was gone, run out of him into this terrible prearranged location? "Oh child, oh lamb," said Rush, taking her into her embrace; but though she hugged Rush, Dory did not bend. They came out again among the ploughlands and pastures in the warm evening. As they walked back to scholar by the age of twelve. About that time the midwife who had helped his mother at his birth here. To take the girl. To send her away." He stood and drew breath. "The Doorkeeper was speaking. "Too high and mighty these days to stop and talk," said Tarry, "though I taught him all he knows of harping. But what's that to a rich man?" Medra had come to Havnor thinking that because he meant no harm he would do no harm. He had done irreparable harm. Men and women and children had died because he was there. They had died in torment, burned alive. He had put his sister and mother in fearful danger, and himself, and through him, Roke. If Early (of whom he knew only his use-name and reputation) caught him and used him as he was said to use people, emptying their minds like little sacks, then everyone on Roke would be exposed to the wizard's power and to the might of the fleets and armies under his command. Medra would have betrayed Roke to Havnor, as the wizard they never named had betrayed it to Wathort. Maybe that man, too, had thought he could do no harm. He had forced them to boil any water they used. Now he said, "If you eat that meat, in a year you'll begin to get dizzy. You'll end with the blind staggers and die as they do." "If I stayed a month, if I stayed the winter, would that use it up? I should have a place to stay. The girl motioned them to come in. Crow chose to wait outside. The room was high and long, with. Standing on that hill, Medra had said, "There is a vein of water, just under where I stand, that will not go dry." They dug down carefully and came to the water; they let it leap up into the sunlight; and the first part of the Great House they made was its inmost heart, the courtyard of the fountain. better! But drink your soup first, and let me sit down to hear..." Medra woke in pain, in darkness. For a long time that was all there was. The pain came and went, the darkness remained. Once it lightened a little into a twilight in which he could dimly see. He saw a slope running down from where he lay towards a wall of stones, across which was darkness again. But he could not get up to walk to the wall, and presently the pain came back very sharp in his arm and hip and head. Then the darkness came around him, and then nothing. But we do not summon them, in spirit or in flesh, to come to us. Only the dead may we summon. Only the shadows. You can see why this must be. To summon a living man is to have entire power over him, body and mind. No one, no matter how strong or wise or great, can rightly own and use another."
