(Chip) Delany has for some time been one of sfs most interesting novelists (Dhalgren, Triton, et cetera) and one of the field's more thoughtful critics (The Jewel-Hinged Jaw: Notes of the Language of Science Fiction). He has not written much short fiction recently, and so we are especially pleased to offer this fresh and magical change of pace..sex cells, eggs and sperm, retain the lack of genetic specialization required to produce a new organism.It was not Columbine who let him in, but her understudy, Lida Mullens, Lida informed Barry that.isfy their curiosity in here where we can watch them, she reasoned, than have them messing things up outside..Even turning my head can set it off. The hillside below the post fell steeply away, its features becoming rapidly indistinct in the feeble starlight before vanishing completely into the featureless black of the gorge beneath. There was no moon, and the sky was clear as crystal. When his eyes had adjusted to the gloom, Colman shifted his attention to the nearer ground and methodically scanned the area in which the twenty-five men of the platoon had been concealed and motionless for the past three hours. If they had undercut their foxholes and weapons pits the way he had shown them and made proper use of the rocks and vegetation, they would stand a good chance of escaping detection. To confuse the enemy's tactical plots further, D Company had deployed thermal decoys a half mile back and higher up near the crest, where, by all the accepted principles, it would have made more sense for the platoon to have positioned itself. Auto timed to turn on and off in a random sequence to simulate movement, the decoys had been drawing sporadic fire for much of the night while the

platoon had drawn none, which seemed to say something about the value of "the book" as rewritten by Staff Sergeant Colman. "There are two ways to do anything," he told the recruits. "The Army way and the wrong way. There isn't any other way. So when I tell you to do something the Army way, what does it mean?".The meeting started out with everybody shouting and talking at once; then the Organizer showed up, and everybody quieted down. He climbed up on the platform, in that casual way he has, and stood there looking down at us with his big golden eyes, his face glowing as it always does at such times, as though there's a light inside him shining through his pores..Something in Barry's manner finally conveyed the nature of his distress. The light dawned: "You have."Oh, yes," said Amos. "I know the sound. I do not like to think what he would do with a woman worthy of a prince either." Yet Amos found himself thinking of it anyway.
