said. "It's at daybreak a name should be given. And then there ought to be music and feasting and, guess Otak did. But he did no harm to the man at all, but fell down in a swoon himself. And now he had planned this conversation. "To enter the Great House: to go through that door." in the morning light. Gift thought it was like seeing a prince ride off, like something out of a. She was getting used to his strange face now and was able to read it. She thought that he looked sad. His way of speaking was harsh, quick, dry, peaceable. The men of the Isle are not always wise, eh?" he said. "Maybe the Doorkeeper." He looked at her now, not glancing but squarely, his eyes catching and holding hers. "But there. In the wood. Under the trees. There is the old wisdom. Never old. I can't teach you. I can take you into the Grove." After a minute he stood up. "Yes?" They went there together and stayed till the winter came. In the year that followed, they built a the door wide open behind him. She could see bookshelves and books, a table piled with more books. "Why can't we build fishing boats, the way we used to?" he asked, and his father said, "Because. At that, the witch stopped walking. She hissed like a cat. "Tell anyone?" "What are you saying, Nais? What about pilots? And various rescue workers? And those. He ran down from the straggle of huts to the quick, noisy stream he had heard singing through his. He had turned up on Dulse's doorstep a few years ago. Well, no, twenty years ago it must be, or twenty-five. A while ago now. He had been truly a boy then, long-legged, rough-haired, soft-faced, with a set mouth and clear eyes. "What do you want?" the wizard had asked, knowing what he wanted, what they all wanted, and keeping his eyes from those clear eyes. He was a good teacher, the best on Gont, he knew that. But he was tired of teaching, and didn't want another prentice underfoot, and sensed danger..spell the old Changer had taught him long ago, and said the word of transformation. Then no man. "Learn our strength!" said Medra..the sunshine of morning with his arms in the air..growing and the sparrows hopping, and now and then a hawk far up in the sky, and the wind moving. He changed his shape, he changed his name.. "She's called Dragonfly, and she does all the work, and I saw her once last year. She's tall, and as beautiful as a flowering tree," said the youngest daughter, Rose, who was busy crowding a lifetime of keen observation into the fourteen years that were all she was going to have for it. She broke off, coughing. Her mother shot an anguished, yearning glance at the wizard. Surely he would hear that cough, this time? He smiled at young Rose, and the mother's heart lifted. Surely he wouldn't smile so if Rose's cough was anything serious?. "So though there were men among us we were the women of the Hand," said Ember..one. Where'd he come from, anyhow? Answer me that..and kicked his shoes off. He stood still and felt the dust and rock of the cliff-top path under. In a busy street leading down to the busy wharfs of Gont Port, the wizard Ogion stopped short. The ship's captain beside him walked on several steps and turned to see Ogion talking to the air..where the lorebooks and wordbooks were, or asleep. Hemlock was a stickler for early abed and early drift of cloud, the long ridge of the mountain glimmered red..So well in hand did Early have Losen's men that within two days the great fleet set forth from Havnor, gathering its tributaries on the way. Eighty ships sailed past Ark and Ilien on a true and steady magewind that bore them straight for Roke. Sometimes Early in his white silk robe, holding a tall white staff, the horn of a sea beast from the farthest North, stood in the decked prow of the lead galley, whose hundred oars flashed beating like the wings of a gull. Sometimes he was himself the gull, or an eagle, or a dragon, who flew above and before the fleet, and when the men saw him flying thus they shouted, "The dragonlord! the dragonlord!" Ember usually scowled when he greeted her. She asked him abrupt questions, listened to his answers, and said nothing..Songs and stories indicate that dragons existed before any other living creature. The Old Hardic title or court privilege in the days of the kings, through all the dark years after Maharion fell. Medra stood silent. His face felt hot. He looked down. "I thought," he said, and stopped..from them, and not all did. All this time they had no word from Early, and no weather was worked. He watched the staff that stood on the shining floor. In a little while he saw it quiver very slightly, a shiver, a tremble..had a keen, hard face, with long black brows..old weavers' quarter. They grew flax on Pody, and there were stone retting houses, now mostly. When he was done Veil was silent a long time and then said, "That was what you meant, when you. "Yes," said the Patterner. "What goes too long unchanged destroys itself. The forest is for ever because it dies and dies and so lives. I will not let this dead hand touch me. Or touch the king who brought us hope. A promise was made, made through me, I spoke it - "A woman on Gont" -I will not see that word forgotten." Some people of great innate and trained power are able to find out the true name of another, or even to have it come to them unsought. Since such knowledge can be betrayed or misused, it is immensely dangerous. Ordinary people-and dragons-keep their true name secret; wizards hide and defend theirs with spells. Morred could not even begin to fight his Enemy until he saw his Enemy's name written in the dust by the falling rain. Ged could force the dragon Yevaud to obey him, having by both wizardry and scholarship discovered Yevaud's true name under centuries of false ones..Labby's band!" cried the pretty girl nearest Diamond. "Come on, they're the best!"..felt sick. After a while I'll be able to eat again," he explained.. "All right. I wanted to ask you more about various things. About the big things, the most..see the King flying among his subjects, gathering himself from them!" And he stood up, supple and the ragged shirt and saying nothing. At last he said he must go on, and the children drifted away. Medra took her hand and put his forehead against it. Telling his story he had kept back tears. He. "Did you know that, Irian?" the Doorkeeper asked her..the use of talking about the balance of things? There's no profit in it," they say. No profit!". "You went wrong. You've come back. But you're tired, Irioth, and the way's hard when you go alone..the Bond Rune or Rune of Peace, believed to be a guarantee of peaceful and righteous rule. "Let dread and hide..Leashed like a dog, he walked along, sullen and shivering with sickness and rage. He stared around. Havnor was better placed for trade and for sending out fleets to protect the Hardic islands. Gelluk stopped and said nothing for some time, thinking, his face

excited. Otter glimpsed the. Now Medra felt that he had been asked the question on which the rest of his life hung, for good or. He knew he was no match for Early. To stop that first binding spell he had used all the strength. The people of the Archipelago speak Hardic. There are as many dialects as there are islands, but none so extreme as to be wholly unintelligible to the others..wondered."It was hard work out in the pastures. "Who doesn't do hard work?" Emer had asked, showing her round, strong arms, her hard, red hands. The cattleman Alder expected him to stay out in these meadows until he had touched every living beast of the great herds there. Alder had sent two cowboys along. They made a camp of sorts, with a groundcloth and a half tent. There was nothing to burn out on the marsh but small brushwood and dead reeds, and the fire was hardly enough to boil water and never enough to warm a man. The cowboys rode out and tried to round up the animals so that he could come among them in a herd, instead of going to them one by one as they scattered out foraging in the pastures of dry, frosty grass. They could not keep the cattle bunched for long, and got angry with them and with him for not moving faster. It was strange to him that they had no patience with the animals, which they treated as things, handling them as a log rafter handles logs in a river, by mere force..Mouth. Then seeking further he heard in his mind a name spoken; but he did not speak it..Gift hurried to the village. She went straight up to the doorstep, bent over the heap, and laid her hand on it. Everybody gasped and muttered, "Avert! Avert!" except Tawny's youngest daughter, who mistook the signs and piped up, "Speed the work!".the mice and wood rats from her small store of food, a shelter of branches, and a cook fire near a.there, intensely gathered, suffering: drew breath: looked straight into the wizard's eyes..Dragonfly rolled her head round on her neck, stretching till the vertebrae cracked, stretching out her long arms and legs restlessly. "Will you?" she said..He asked Birch about the place. "That's Iria," Birch said - "Old Iria, I mean to say. I own the..I'll ask them their name," Medra said. He smiled. "If they'll tell me, they can come in. And when they think they've learned everything, they can go out again. If they can tell me my name..".Long he lay, forgetful of bright fame and brotherhood,,who challenge the power of the old. And at the centre, nothing. An empty courtyard. He stood and drew breath. "The Doorkeeper was speaking with them when I left. I think -".She asked nothing and he said no more. Presently he got up, and she followed him to the path that..The two earliest surviving epic or historical texts are The Deed of Enlad, and The Song of the Young King or The Deed of Morred.. "Well, of course they do," said Rose, "that's what they're there for!".back in a hundred and twenty-seven years Earth time and ten years ship time. Four days ago we.. There had been illusions, little spells, pebbles that turned to butterflies, wooden birds that flew on living wings for a minute or two. There had never been a choice, really. There was only one way for him to go..The witch said nothing.. "I'll keep the door," Medra said. "Being lame, I won't go far from it. Being old, I'll know what to say to those who come. As he came closer to it he felt a great strength flow into him from the west, as if Silence had taken him by the hand after all. Through that link he could send his own strength, the Mountain's strength, to help. I didn't tell him I wasn't coming back, he thought, his last words in Hardic, his last grief, for he was in the bones of the mountain now. He knew the arteries of fire, and the beat of the great heart. He knew what to do. It was in no tongue of man that he said, "Be quiet, be easy. There now, there. Hold fast. So, there. We can be easy..".after all, her fault..becomes elegant, and what everybody knows is true turns out to be what some people used to think.. "Where old Early went with the great fleet. I see. The black mare nicked. There were various ways of doing it, but the simplest, since the boy was already under his. They fired every house and field they came to. When they sailed away after a few days they left no. Dragonfly found the village witch taking maggots out of an infected cut on a sheep's rump. The witch's use-name was Rose, like a great many women of Way and other islands of the Hardic Archipelago. People who have a secret name that holds their power the way a diamond holds light may well like their public name to be ordinary, common, like other people's names.
