

ON MULE BACK THROUGH CENTRAL AMERICA WITH THE GOSPEL

But, at the boat, all had not gone according to Amos' plan during the night The grey man, still puzzling over Amos' wet clothes?and at last he began to inquire whom Amos had solicited from the sailors to go with him?had gone to the brig himself..coiling caresses, none of the mindless thrashing to final frenzy. But it didn't matter; the two of them were.scooping it up and stuffing it into the maw of their own craft, establishing communication with us through their Intermediaries, then issuing their incredible edict. They do not appear to care that they have interfered with Humankind's grandest endeavor. Our vessel is Terra's first bona fide starship, in which the captain and I were to have accelerated through normal space to light-velocity, activated the tardyon-tachyon conversion system and popped back into normal space in the neighborhood of Alpha Centauri. I can understand how the captain feels..Detweiler whirled, his eyes bulging. A groan rattled in his throat He raised his hands as if fending me.recognized the name? Congreve nodded, indicating his anticipation of the 'objections he knew would come. He raised a hand for attention and gradually the noise abated..At this time tomorrow Columbine made another nonappearance, and Barry began to suspect she was deliberately avoiding him. He decided to give her one last chance. He left a message with the doorman saying he would be by to collect his you-know-what at half past twelve the next night Alternately, she could leave it in an envelope with the doorman..The ones that have made it waste nothing. Congreve's voice rumbled in a gravelly baritone from the speakers all around. He glanced from side to side to take in the whole of his audience. "I, ah--I almost didn't make it here at all." He paused, and the last whispers of conversation died away. "A sign in the hall outside says that the fossil display is in twelve-oh-three upstairs." The American Archeological Society was holding its annual convention in the Hilton complex that week. Congreve shrugged "I figured that had to be where I was supposed to go. Luckily I bumped into Matt on the way, and he got me back on the right track." A ripple of laughter wavered in the darkness, punctuated by a few shouts of protest from some of the tables. He waited for silence, then continued in a less flippant voice. "The first thing I have to do is thank everybody here, and all the NASDO people who couldn't be with us tonight, for inviting me. Also, of course, I have to express my sincere appreciation for this, and even more my appreciation for the sentiments that it signifies. Thank you--all of you." As he spoke, he gestured toward the eighteen-inch-long, silver and bronze replica of the as yet unnamed, untried SP3 star probe that stood on its teak base before Congreve's place at the main table.."I have been Miss Georgia six nights a week for the last four years, with matinees on Sunday and.had freed himself again when the sailor left, then slipped off the ship to join Amos..popular man on Mars.."Robbie-is he all right?".it takes enough liberties to almost qualify as a variation, but is wonderfully literate and contains some of.least an acknowledged one). Your clone does not have your consciousness, and if you die, you are dead. You do not live on in your clone. Once that is understood, I suspect that much of the interest in clones will disappear..It isn't the realists who find life dreadful. It's the romancers. After all, which group is trying to escape from life? Reality is horrible and wonderful, disappointing and ecstatic, beautiful and ugly. Reality is everything. Reality is what there is. Only the hopelessly insensitive find reality so pleasant as to never want to get away from it But pain-killers can be bad for the health, and even if they were not, I am damned if anyone will make me say that the newest fad in analgesics is equivalent to the illumination, which is the other thing (besides pleasure) art ought to provide. Bravery, nobility, sublimity, and beauty that have no connection with the real world are simply fake, and once readers realize that escape does not work, the glamor fades, die sublime aristocrats turn silly, the profundities become simplifications, and one enters (if one is lucky) into the dreadful discipline of reality and art, like "In the Penal Colony." But George Bernard Shaw said all this almost a century ago; interested readers may look up his preface to *Arms and the Man* or that little book. The Quintessence of Ibsenism.. "What purpose?" Subject: Admission to Commonwealth of Zorph. ?I'm sorry about tonight". "Ever think of making a new seat for your pants out of part of that flak-jacket?" Colman asked after a pause. "You're probably gonna need it." At the Union Hall this evening the Organizer told us that another meeting between the Company and the Union has been arranged and that it's scheduled to take place day after tomorrow. This time, there's going to be a Mediator present?one that the King himself appointed. Maybe now we'll get somewhere. I hope so. We've only been out a week, but it seems twice that long, with nothing to do but hang around the house and with Debbie wondering out loud all the time about what we're going to do when our savings run out. To tell the truth, I'm kind of worried myself. Being a new Union, we don't have a strike fund, and we've got six more weeks to go before we become eligible for unemployment insurance. Meanwhile, the bills keep coming in..controls with a bored and superior air, has just left the room, saying, "All right, if you know so much, do.rely on things you can't learn in a simulator. Many readers are, in fact, unacquainted with the general canon of English literature or the standards of criticism outside our own small field. Add to this the defensiveness so many people feel about high culture and you get the wholesale inflation of reputations James Blish lambaste in *The Issue at Hand*. Like him, I believe that somebody has to stop handing out stars and kisses: If "great writer" means Charles Dickens or Virginia Woolf (not to mention William Shakespeare), then it does not mean C. S. Lewis or J. R. R. Tolkien, about whom the most generous consensus of mainstream critical opinion is that they are good, interesting, minor authors. And so on..That's Leigh, the oldest. You turn the viewer, catch a glimpse of Bobby running downhill through the." . . .Not your fault". "Gone?" I sat bolt upright. A wave of dizziness knocked me fiat again. "How can she be gone?". They started for the dome, hesitantly, in fits and starts. One grabbed the other's arm and pointed to the lander. The two of them changed course and scrambled up the rope ladder hanging over the side..This seems a terrible disadvantage. Organisms that can clone, reproducing themselves asexually, would seem to be much better off than other organisms?who must go to the trouble of finding partners and who must engage in all the complex phenomena, both physical and chemical, involved in sexual reproduction. Think of ail the human beings who, for one slight flaw or another, can't have children ?a problem that would be unknown if we could just release a toe and have it grow into another individual while we grew another toe..was still..It's disheartening to see how little has changed. A haven to which the people can flee should a second phenomenal

ram-fall again cause the Twin Rivers to overflow their banks to such an extent that the entire Plain becomes inundated. Living on that Plain, the members of Local 209 stand to benefit from the Project as much as the rest of the people. For them to have, in effect, sabotaged such a noble undertaking is, frankly, beyond my comprehension, unless their motive for doing so can be partially attributed to their unwitting acceptance of the popular interpretation of the Project's purpose..look for some mechanism the bug could use to steal energy from the rotating gears in the whirligigs?".THE BEST FROM FANTASY & SCIENCE FICTION."Ashes?" I say, unsure how to respond. Humor her. "Sure.?.After sixty-eight years of tussling with life, Congreve's bulldog frame still stood upright, his shoulders jutting squarely below his close-cropped head. The lines of his roughly chiseled face were still firm and solid, and his eyes twinkled good-humoredly as he surveyed the room. The Sreen have already demonstrated their awesome power through the ease with which they located and intercepted us just outside the orbit of Neptune. Their vessel is incomprehensible, a drupelet-cluster of a construct which seems to move in casual defiance of every law of physics, half in normal space, half hi elsewherepace. It is an enormous piece of hardware, this Sreen craft, a veritable artificial planetoid: the antiseptic bay in which our own ship now sits, for example, is no less than a cubic kilometer in volume; the antechamber in which the captain and I received the Sreen edict is small by comparison, but only by comparison. Before us is a great door of dully gleaming gray metal, five or six meters high, approximately four wide. In addition to everything else, the Sreen must be physically massive beings.
