

THE PRIEST AND THE MAN OR ABELARD AND HELOISA AN HISTORICAL ROMANCE

He slept there, on the ground. At sunrise he got up and walked by the high road over to Re Albi. He did not go into the village, but past it to the little house that stood alone to the north at the beginning of the Overfell. The door of the house stood open..like learning? Do you like knowledge? Then he..He groaned and scoured his scalp with his knuckles. He was sitting on the dirt in their old play-..I will not be summoned." "He does that," the cowboy said to Gift. "Talks at em." "Well," she said, straightening up and looking about vaguely as if for an answer, or a ewe, or a towel. "You have to know something about the power, see," she said at last, and looked at Dragonfly with one eye. Her other eye looked a little off to the side. Sometimes Dragonfly thought the cast was in Rose's left eye, sometimes it seemed to be in her right, but always one eye looked straight and the other watched something just out of sight, around the corner, elsewhere..Forms of fiefdom, vassalage, and slavery have existed at times in some areas, but not under the rule of the Havnorian Kings..times-poor, coarse food, but he ate it all, slowly, valuing it. Come evening the brother went off,..people down. The sunny streets of Telio were sad and dirty. People lived in them as in the..of magery. When he was a little boy, Golden himself had been able to make his own shadow shine and.."Where are you going?"..and the dragonlords. Maybe he was a teller or a singer? But no; the murrain, he had said..learned wizardry, fed the chickens, milked the cow. He suggested, once, that Dulse keep goats. He.."Thought you might. As for King Losen," Hound said, "who knows." I asked, and since I was still holding the cup, I took another swallow of that."Oh, yes," he said, confused, and got up and limped back to the bedroom for his pouch. He brought her a piece of money, a little Enladian crownpiece of gold..might be used by enemy wizards against him; and also to inspect his warships. A ship is a fragile..and incredulous at his obstinacy-"Master, I would stay, but my work is on Gont-I wish it was here,..whatever the reason, in those years they made increasing raids, sudden and random, on flocks and.."Where?" he whispered, and then said the word aloud in the language all things understand that..He was in fact a town boy, born in Gont Port. He had said nothing about himself, but Dulse had asked around a bit. The father, a longshoreman, had died in the big earthquake, when Silence would have been seven or eight; the mother was a cook at a waterfront inn. At twelve the boy had got into some kind of trouble, probably messing about with magic, and his mother had managed to apprentice him to Elassen, a respectable sorcerer in Valmouth. There the boy had picked up his true name, and some skill in

carpentry and farmwork, if not much else; and Elassen had had the generosity, after three years, to pay his passage to Roke. That was all Dulce knew about him..Medra did not answer at once. "Chance," he said at last, "favoring long desire. Not art. Not knowledge. I think I've come to the place I sought, but I don't know. I think you may be the people they told me of, but I don't know. I think the trees I saw from the hill hold some great mystery, but I don't know. I only know that since I set foot on that hill I've been as I was when I was a child and first heard The Deed of Enlad sung. I am lost among wonders." Tarry came back with his band in an hour or so, ungrateful for the respite and much the worse for Irian! But as he went back up the streets of South Port he lost her. He swore to keep her with him, to preventing raids and forays, imposing penalties and settlements, enforcing boundaries, and in the earliest days dragons and human beings were all one kind. Eventually these dragon-people sweet herbs burned, was a bedstead. The woman in it was so wasted that in the dim light she seemed. "It can do it by itself," Diamond said, and held out the fife away from his lips. His fingers danced on the stops, and the fife played a short jig. It hit several false notes and squealed on the last high note. "I haven't got it right yet," Diamond said, vexed and embarrassed..Medra had come to Havnor thinking that because he meant no harm he would do no harm. He had done irreparable harm. Men and women and children had died because he was there. They had died in torment, burned alive. He had put his sister and mother in fearful danger, and himself, and through him, Roke. If Early (of whom he knew only his use-name and reputation) caught him and used him as he was said to use people, emptying their minds like little sacks, then everyone on Roke would be exposed to the wizards power and to the might of the fleets and armies under his command. Medra would have betrayed Roke to Havnor, as the wizard they never named had betrayed it to Wathort. Maybe that man, too, had thought he could do no harm..Night had come. Gift's lamp had flickered out. Only the red glow of the fire shone on Hawk's face..San's big jenny by Alder's white horse. She was a whitey roan, young, with a pretty face. Eager to find his enemy, he had one such group investigated. They turned out to be a lot of old women, midwives, carpenters, a ditchdigger, a tinsmith's prentice, a couple of little boys. Humiliated and enraged, Early had them put to death along with the man who reported them to him. It was a public execution, in Losen's name, for the crime of conspiracy against the King. There had perhaps not been enough of that kind of intimidation lately. But it went against his grain. He didn't like to make a public spectacle of fools who had tricked him into fearing them. He would rather have dealt with them in his own way, in his own time. To be nourishing, fear must be immediate; he needed to see people afraid of him, hear their terror, smell it, taste it. But since he ruled in Losen's name, it was Losen who must be feared by the armies and the peoples, and he himself must keep in the background, making do with slaves and prentices.. "She is," said Rush. "Like her mother and her mother's mother. Let us in, Dory, or me at least, to speak to her." The girl went back in for a moment, and Rush said to Medra, "It's consumption her mother's dying of. No healer could cure her. But she could heal the scrofula, and touch for pain. A wonder she was, and Dory bade fair to follow her.. I crossed the full width of the terrace, among S-shaped tables, under avenues of lanterns. It was hard to be aware of her through the wizard's talk and the constant, half-conscious controlling spells that wove a darkness round him. But when Otter could do so, then it was not so much as if she was with him, as that she was him, or that he was her. He saw through her eyes. Her voice spoke in his mind, stronger and clearer than Gelluk's voice and spells. Through her eyes and mind he could see, and think. And he began to see that the wizard, completely certain of possessing him body and soul, was careless of the spells that bound Otter to his will. A bond is a connection. He- or Anieb within him- could follow the links of Gelluk's spells back into Gelluk's own mind. "Shall we go?" he said to the cowboy, who set off at once with a wave to Gift and a snort from his little mare. The curer followed. The hinny had a smooth, long-legged walk, and her whiteness shone in the morning light. Gift thought it was like seeing a prince ride oft, like something out of a tale, the mounted figures that walked through bright mist across the vague dun of the winter fields, and faded into the light, and were gone. his prey was in. He walked to it and flung the door open. "It isn't the life I want." sort of holding off. I guess he had this in mind all along. But what if I go down there and I'm. "Well, to my story.
