published his memoirs, a comedian who did a surrealistic skit about a speakeasy for five-year-olds, and a novelist with a speech impediment who got into an argument with the comedian about whether his skit was essentially truthful or unjustifiably cruel. She was blonder and more beautiful than he'd remembered, more loving and tender than he'd ever known her to be, and in the union that was their reunion Nolan found fulfillment. Of course there was none of the avid hunger of Nina's coiling caresses, none of the mindless thrashing to final frenzy. But it didn't matter; the two of them were together at last. The lines of his roughly chiseled face were still firm and solid, and his eyes twinkled good-humoredly as he surveyed the room. It seemed strange to many of those present that a man so vital, one with so much still within him, should be about to deliver his retirement address.."I like shoes pretty much generally," she went on. I'm on the concert tour and work their stim board, me and my console over there on the side of the stage. It isn't that much different in principle from playing one of the instruments in the backup band, though it's a hell of a lot more complex than even Nagami's synthesizer. It all sounds simple enough: my console is the critical link between performer and audience. Just one glorified feedback transceiver: pick up the empathic load from Jain, pipe it into the audience, they react and add their own load, and I feed it all back to the star. And then around again as I use the sixty stim tracks, each with separate controls to balance and augment and intensify. It can get pretty hairy, which is why not just anyone can do the job. It helps that I seem to have a natural resistance to the sideband stopover radiation from the empathic transmissions. "Ever think of teaching?" said the school voc counselor. "No," I said. It was the second time she had seen Brother Hart bleed..It isn't the realists who find life dreadful. It's the romancers. After all, which group is trying to escape from life? Reality is horrible and wonderful, disappointing and ecstatic, beautiful and ugly. Reality is everything. Reality is what there is. Only the hopelessly insensitive find reality so pleasant as to never want to get away from it But pain-killers can be bad for the health, and even if they were not, I am damned if anyone will make me say that the newest fad in analgesics is equivalent to the illumination, which is the other thing (besides pleasure) art ought to provide. Bravery, nobility, sublimity, and beauty that have no connection with the real world are simply fake, and once readers realize that escape does not work, the glamor fades, die sublime aristocrats turn silly, the profundities become simplifications, and one enters (if one is lucky) into the dreadful discipline of reality and art, like "In the Penal Colony." Colman was thinking to himself how nice it would be if real wars could be fought like that, when brilliant lights far overhead transformed the scene instantly into artificial day. He squinted against the sudden brightness for a few seconds,

pushed his helmet to the back of his head, and looked around. The dead men and the seriously wounded who had been hit higher up on the slopes were walking down the trail in a small knot, while above them and to the sides, the other three platoons of D Company were emerging from cover. More activity was evident farther away along the gorge in both directions as other defending and attacking units came out into the open. Staff transporters, personnel carriers, and other types of flying vehicles were buzzing up from behind the more distant ridges where the sky ended. Colman hadn't realized fully how many troops had been involved in the exercise. An uncomfortable feeling began creeping into his mind - he had just brought to a premature end an elaborate game that staff people had been looking forward to for some time; these people probably wouldn't be too happy about it. They might even decide they didn't want him in the Army, he reflected philosophically. I forgot to watch out for the rebound. Pain lanced up my arm. I went down, bouncing my head off. "Well it's about time," said the grey man, and began walking toward it.
